Note: Use the default bullet/number indentations for ordered and unordered lists in your Sketch design models. Use the default browser bullet/number indentations for ordered and unordered lists in developed applications. Please note there will be slight differences in the indentation specs between the Sketch design models and developed applications.

Grid

Grid overview

- The ODG grid is a modified version of U.S. Web Design System (USWDS) grid system that harmonizes with our standard spacing increments.
- The grid system is responsive.
- The container is centered within the browser.
- For extra large: the container width and column width are fixed.
- For large - extra small: the column width will resize to fit the container width which is dependent on the screen size.
- The column widths provided below are based on the container widths stated in the table.
- **Please note:** The design templates and stencils in this kit are based on the extra large, medium, and extra small grids.

Extra large

Artboard:	**1440px**
Breakpoint:	**≥ 1200px**
Container width:	**1140px**
Columns:	**12**
Gutter widths:	**24px** (12px left/12px right of each column)
Column width:	**71px**

Large

Artboard:	**1024px**
Breakpoint:	**≥ 992px**
Container width:	**960px**
Columns:	**12**
Gutter widths:	**16px** (8px left/8px right of each column)
Column width:	**64px**

Medium

Artboard:	**768px**
Breakpoint:	**≥ 768px**
Container width:	**720px**
Columns:	**8**
Gutter widths:	**16px** (8px left/8px right of each column)
Column width:	**74px**

Small

Artboard:	**Not specified**
Breakpoint:	**≥ 576px**
Container width:	**540px**
Columns:	**4**
Gutter widths:	**16px** (8px left/8px right of each column)
Column width:	**119px**

Extra small

Artboard:	**360px**
Breakpoint:	**< 576px**
Container width:	**Auto**
Columns:	**4**
Gutter widths:	**16px** (8px left/8px right of each column), **20px** (outside left/right gutter)
Column width:	**Fluid**

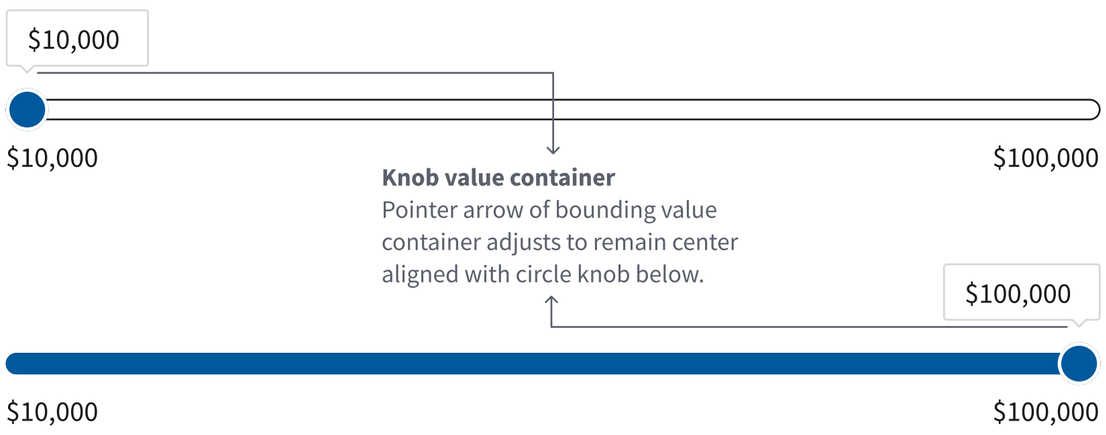
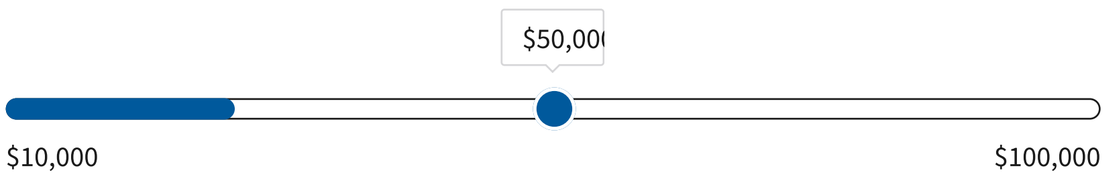
Min/Max value examples



Overrides



Note:
After inserting the slider symbol, select the symbol to adjust the slider to desired width. In the Sketch inspector, using overrides, enter desired values for the knob, min and max inputs. If you detach the symbol prior to entering new values, the container padding around the knob input value will not be retained.
